(54) Title: **REFLECTRON**

(57) Abstract: A reflectron (109) is provided with at least two sets of field resistances (131a-131n, 137a-137n) which may be connected together or separately to the reflectron electrodes (123a-123n) in order to be able to provide a plurality of different shaped electrical fields inside the reflectron (109).
